

Forschungsbudget 2022 – «One Health» Wirkstoffresistenzen

Arnold M, Schmitt S, Collaud A, Rossano A, Hübschke E, Zeeh F, Nathues H, Perreten V (2022). Distribution, genetic heterogeneity, and antimicrobial susceptibility of *Brachyspira pilosicoli* in Swiss pig herds. *Veterinary Microbiology* 269:109421. <https://www.sciencedirect.com/science/article/pii/S0378113522000918>.

Biggel M, Horlhog J, Nüesch-Inderbinnen M, Chattaway M A, Stephan R (2022). Epidemiological links and antimicrobial resistance of clinical *Salmonella enterica* ST198 isolates: a nationwide microbial population genomic study in Switzerland. *Microbial Genomics* 8(10). doi: 10.1099/mgen.0.000877.

Biggel M, Moons P, Ngoc Nguyen M, Goossens H, Van Puyvelde S (2022). Convergence of virulence and antimicrobial resistance in increasingly prevalent *Escherichia coli* ST131 papGII+ sublineages. *Communications Biology*. 5:752 <https://doi.org/10.1038/s42003-022-03660-x>.

Biggel M, Zurfluh K, Hoehn S, Schmitt K, Frei A, Jans C, Stephan R (2022). Complete Genome Sequence of *Hafnia paralvei* Isolate AVS0177 harboring *mcr-9* on a Plasmid. *Microbiology Resource Announcements* e00966-21. <https://doi.org/10.1128/MRA.00966-21>.

Biggel M, Zurfluh K, Hoehn S, Schmitt K, Frei A, Jans C, Stephan R (2022). Complete Genome Sequence of Colistin-Resistant *mcr-10* Harboring *Enterobacter cloacae* Isolate AVS0889 Recovered from River Water in Switzerland. *Microbiology Resource Announcements*, e0016522. doi: 10.1128/mra.00165-22.

Marti H, Suchland RJ, Rockey DD (2022). The impact of lateral gene transfer in *Chlamydia*. *Front Cell Infect Microbiol*. 12:861899.

Nüesch-Inderbinnen M, Biggel M, Zurfluh K, Treier A, Stephan R (2022). Faecal carriage of enterococci harbouring oxazolidinone resistance genes among healthy humans in the community in Switzerland. *Journal of Antimicrobial Chemotherapy* 77(10):2779-2783. doi: 10.1093/jac/dkac260.

Nüesch-Inderbinnen M, Hausmann A, Treier A, Zurfluh K, Biggel M, Stephan R (2022). Fattening pigs are a reservoir of florfenicol resistant enterococci harboring oxazolidinone resistance genes. *Journal of Food Protection* 85(5):740-746. doi: 10.4315/JFP-21-431.

Nüesch-Inderbinnen M, Hänni C, Zurfluh K, Hartnack S, Stephan R (2022). Antimicrobial resistance profiles of *Escherichia coli* and prevalence of ESBL-producing Enterobacteriaceae in calves from organic and from conventional dairy farms in Switzerland. *MicrobiologyOpen*, 11, e1269. <https://doi.org/10.1002/mbo3.1269>.

Nüesch-Inderbinnen M, Tresch S, Zurfluh K, Cernela N, Biggel M, Stephan R (2022). Finding of extended-spectrum β -lactamase (ESBL)-producing Enterobacterales in wild game meat originating from several European countries: predominance of *Moellerella wisconsensis* producing CTX-M-1, November 2021. *Eurosurveillance*, 27(49):pii=2200343. <https://doi.org/10.2807/1560-7917.ES.2022.27.49.2200343>.

Schmitt K, Biggel M, Stephan R, Willi B (2022). Massive spread of OXA-48 carbapenemase-producing Enterobacteriaceae in the environment of a Swiss companion animal clinic. *Antibiotics*, 11(2), 213. <https://doi.org/10.3390/antibiotics11020213>.
